Subject: Digital Assessment Substitution

Hi Both

I called an impromptu LTMG on Friday afternoon to get a joint position and a collaborative approach to theorising digital substitution for assessment types. There was an online event hosted by LTHE and they came up with this document - https://gla-my.sharepoint.com/:w/g/personal/nathalie_sheridan_glasgow_ac_uk/EWIdqICDcFxBsuuJ4zqjjGEBi81sazpEQIH6VRphGptkPw?rttime=ep82n1PI10g

Using this as a base projection of the types of examinations we have I have individually drafted this document covering initial thoughts of how UWE has done these types of assessment in the past / could substitute - [Digital Assessment Contingency Survival Guide.docx](#)

Is there any assessment types I haven't considered?

Yours
